

Refugee counseling in the Diakonisches Werk Region Kassel is still there for you! We take the protective measures seriously!

Consultations are now possible again with an appointment and under hygienic conditions. You can call at any time. We will report back as soon as possible.

Changes due to hygiene regulations and distance regulations:

- Please make an appointment by email or phone with the relevant consultant.
- It is then clarified whether a personal interview is necessary.
- Telephone advice, also as a conference call with translators and refugees at the same time, is possible. Video conferences are being tried out.
- Please bring a face mask.
- You will be picked up at the door.
- Please do not bring any children with you, bring them to friends or family.
- Until further notice, there is no counseling in the Diakoniezentrum in Wolfhagen.

As always, it is possible to describe concerns by email and send necessary documents by email or post.
